

Shri Shivaji Mahavidyalaya, Barshi

(Star College by DBT, MST)

Principal's message

It gives me a great pleasure to welcome you to Shri Shivaji Mahavidyalaya, Barshi. The college was established by a great visionary the late Dr. Mamasahab Jagdale in 1960 and governed by Shri Shivaji Shikshan Prasarak Mandal, Barshi. The college provides higher education and overall development of students from the rural area. It is one of the reputed colleges in Solapur district of Maharashtra, imparting education in Arts and Science faculties. Also, post graduate degree courses are offered both in Science and Arts streams. The college is also a research centre for some subjects of Arts and Science faculties. The college has junior wing for Arts and Science faculty. Overall student strength of the college is over 6000.

Students choose our college for many reasons: highly committed and experienced faculty, infrastructural facilities available in the college, learning environment and a great tradition of quality education etc. The college has earned a name and fame due to its academic excellence, high standard of discipline, administrative control, regularity and punctuality of its routine and progressive outlook along with the society. The college provides all facilities like library, the computers, the internet, the laboratories, language laboratory etc to meet the needs of new upgraded pattern of education under Choice Based Credit System (CBCS).

Academic excellence has been the keyword of the college since its inception, with our academic outcome and various national approvals. Colleges are, more than ever before, being recognised as platforms that should integrate the demands of the different industries/entrepreneurships that eventually students will be required to perform in. We strive to create a learning environment where our students are able to acquire knowledge and advanced skills in their specialised fields enabling them to fulfil their aspirations. Closely supervised study in an intellectually and culturally stimulating environment, together with an emphasis on student-welfare and close contact between the staff and the students, ensures that individual students get maximum support. Educational quality is constantly monitored and teaching learning standards are reviewed and maintained.

We believe that education does not confine to a classroom alone. Various qualities required for successful life are acquired through participation in extracurricular activities. We provide them facilities like sports, NSS, NCC, JRC/YRC, cultural activities and skill development programmes, volunteering etc. other than classroom teaching and provide them with allaround development. Our alumni are well established in diverse fields like administrations, industries, research institutes, education etc. Ignited minds of students take to competitive examinations and many of them are successful and established at national and international level. Students from rural background have some inborn qualities like hard work, cooperation and sincerity, which make foundation for them to establish themselves in various fields. During college-life days we provide diverse facilities for them to acquire essential qualities like sense of responsibility, social adaptability, effective intelligence, resourcefulness and communication ability to make them leaders in the field they choose, become noble, dedicated and ideal citizens of India and hence contribute to national development.

I look forward to welcoming you and wishing you enriching experience with us.

Prof. Dr. P.R. Thorat
Principal
